Profile Summary

I'm Sobhan (Sam), Motivated and experienced mobile app developer with expertise in Flutter and native Android (Java). Skilled in backend development, RESTful APIs (Node.js), and database management (SQL & NoSQL). I specialize in creating responsive, high-performance applications, boosting project efficiency by 25% at the initial stage. Passionate about problem-solving, innovation, and continuous learning. I thrive in team environments, collaborating toward shared goals while constantly expanding my technical expertise.

Work Experience

FullStack Developer

Freelance Project

Milan, Italy

January 2025 - March 2025

Tasks and Achievements

Designed and developed a fully responsive e-commerce website and mobile application for a startup team

- Translated Figma designs into a fully functional, cross-platform application (web, mobile, tablet) with adaptive layouts.
- Built a custom admin panel integrated with Firebase for real-time data management.
- Implemented Firebase Authentication and Firestore for secure user login and order/customer data storage.
- Delivered a dynamic, interactive UI tailored for different device types to ensure optimal user experience.

Flutter Developer

IRIC

Razavi Khorasan, Iran

October 2019 - October 2020

Tasks and Achievements

Enhanced the smart home kit app's user experience through iterative design improvements and user testing, achieving a 35% increase in positive user reviews and a 60% rise in daily active users.

- Rolled out a series of user-focused enhancements, including gamification features and social sharing options, resulting in a 15% increase in daily active users over six months.
- Executed a robust training program for users, decreasing customer support tickets by 20% and enhancing platform satisfaction by 35% through improved issue resolution skills

Flutter Developer

NIU Nature GmbH

Munich, Germany

September 2023 - December 2024

Tasks and Achievements

- Collaborated with a team to launch a healthcare app that offers daily programs from esteemed German physicians;
- Developed daily schedules in collaboration with top German doctors, optimizing patient treatment plans and contributing to a 30% rise in positive patient feedback.
- Rolled out an all-encompassing health monitoring dashboard, driving a 45% surge in user engagement and a 20% boost in app revenue in the first half-year.
- Integrated Apple & Google authentication and in-app purchases, increasing user engagement by 30% through improved health monitoring features.

Android application developer

Dade Gostar GHOMES

Razavi Khorasan, Iran

October 2018 - September 2019

Tasks and Achievements

Directed a multidisciplinary team in creating a telemedicine platform, reducing patient no-show rates by 20% and increasing user satisfaction scores by 15% within the first six months. I was involved in the following projects:

- Hospital management app design
- E-commerce solutions
- Drug store applications
- Blood donation center projects

■ **Android application developer**

Graph

Razavi Khorasan, Iran

April 2017 - January 2018

Tasks and Achievements

Mentored two colleagues in Android programming, enhancing company management systems; led the development of an e-commerce app, updated a legacy Basic4Android app, and designed a UI for a card management app without backend support.

■ **Android application developer (internship)**

Mana (Greenweb)

Razavi Khorasan, Iran

June 2016 - September 2016

Tasks and Achievements

- Designed and deployed a feature-rich Android app that dramatically increased customer interaction and online visibility, leading to a 10% uplift in monthly sales within the first five months.
- Conducted in-depth competitor analysis and adjusted digital marketing tactics, resulting in a 20% increase in click-through rates and a 15% growth in conversion rates over three months.

Education

■ **Master of Cyber Security**

Institute/University: University of Padua

Padua, Veneto, Italy

October 2021 - September 2023

■ **Bachelor of Computer Engineering**

Institute/University: Sadjad University

Mashhad, Razavi Khorasan, Iran

October 2018 - September 2020

Skills

- | | | |
|---|--|--|
| ◆ Flutter Development | ◆ Native Android & IOS Development | ◆ Node.js & Express.js |
| ◆ Database Management (SQL & NoSQL) | ◆ State Management (BLoC, Riverpod) | ◆ Networking (HTTP, Dio, Chopper, GraphQL) |
| ◆ API Integration (RESTful APIs, JSON) | ◆ Firebase Services | ◆ Location Services (Google Maps) |
| ◆ Unit & Integration Testing | ◆ Clean Architecture & Design Patterns | ◆ Responsive & Adaptive UI |
| ◆ Figma / AdobeXD / Sketch | ◆ RESTful API Development | ◆ Cloud Platforms (Google Cloud, AWS) |
| ◆ Version Control (Git, GitHub, GitLab) | ◆ Mobile App Deployment | ◆ AI & Machine Learning |

Projects

■ **WooCom Flutter E-Commerce (Web & Application)**

- Developed a modern, fully responsive e-commerce app for web, tablet, and mobile.
- Integrated Firebase backend for authentication, product management, and orders.
- Ensured smooth UI/UX with an elegant design inspired by [this Figma template](#).
- Designed a custom admin panel for store management, based on [this Figma design](#).
